

THE SOULFIRE STORY

SoulFire specializes in authentic pit smoked barbeque served with soul. Our ribs, chicken, pork and brisket are dry rubbed and then slow smoked in the pit using a blend of local wood. We serve our barbeque dry, which means that the guest can choose from a variety of homemade sauces representing the major barbeque regions in the country.

Whether staying in, or waiting for a take out order, diners are treated to the soulful and funky sounds of the greatest soul musicians in history. The range of artists and sounds is captured on a custom made bar counter that features the original LP covers of the kings and queens of soul.

In addition to barbeque and music, SoulFire is on a mission to serve all souls. Our restaurant has been designed to accommodate people of all different abilities and we will do whatever it takes to meet our customer's special needs.
